Changes in the list of subdivision names and code elements

The ISO 3166 Maintenance Agency[1] has agreed to effect changes to the header information, the list of subdivision names or the code elements of various countries listed in ISO 3166-2:1998, *Codes for the representation of names of countries and their subdivisions — Part 2: Country subdivision code*. The changes are based on information obtained from either national sources of the countries concerned or on information gathered by the Panel of Experts for the Maintenance of ISO 3166-2.

ISO 3166-2 Newsletters are issued by the secretariat of the ISO 3166/MA when changes in the code lists of ISO 3166-2 have been decided upon by the ISO 3166/MA. ISO 3166-2 Newsletters are identified by a two-component number, stating the currently valid edition of ISO 3166-2 in Roman numerals (e.g. "I") and a consecutive order number (in Latin numerals) starting with "1" for each new edition of ISO 3166-2.

For all countries affected a complete new entry is given in this Newsletter. A new entry replaces an old one in its entirety. The changes take effect on the date of publication of this Newsletter. The modified entries are listed from page 5 onwards. For reasons of user-friendliness, changes have been marked with red colour. The table below gives a short overview of the changes made.
